

CATSCLAW

**mobile, permanent in-ground & tactical
tire shredding product**

Global GRAB's CATSCLAW Tire Shredding products and solutions are a less-than-lethal alternative designed for a variety of use cases to include border and security checkpoints, stopping hostile and threat vehicles, smuggling interdiction, combatting terrorism, special security details and events and providing a second layer of deterrence and protection. CATSCLAW in-ground permanent, mobile and tactical tire shredding product line provides officers the ability to selectively immobilize a target vehicle in the safest manner possible. The performance, durability, reliability and operational life span of our products prove to make CATSCLAW a smart investment as used by defense and military agencies.
