

GLOBAL
GRAB

We Exist To Protect.

WELCOME TO GLOBAL GRAB,

Global GRAB has a proven track record of providing unmatched and award-winning innovation and patented products. We continually deliver end-to-end, turnkey perimeter security solutions for clients around the globe, in a manner that's unrivaled by other firms in our industry.

As a market leader, Global GRAB is honored to employ a long-tenured, energetic and well-equipped workforce. We have had the privilege of serving hundreds of customers representing mission critical government, military and commercial institutions worldwide. We are driven to consistently meet and exceed our clients' security goals and requirements through the implementation of a proven process that includes best practices consultation, design and engineering, construction and integration, and service and maintenance.

We look forward to exceeding your expectations!

Sincerely,

BRIAN A. COOPER

President & Chief Operating Officer

**GLOBAL GRAB
IS THE WORLDWIDE
AUTHORITY ON
PERIMETER SECURITY**

With decades of experience in both institutional and commercial security, the team at Global GRAB is a highly sought-after group of perimeter defense experts. Our team is best known for the development of the GRAB 300, the leading patented less-than-lethal barrier system on the market today.

However, our strength is in our ability to leverage our knowledge and experience to provide end-to-end solutions for our clients.

Global GRAB takes a best practices approach to physical security and the customers it serves. Our time-tested process begins with a deep understanding of a customer's goals and requirements, while evaluating potential threats and security vulnerabilities. Next, our engineers design a product and solution offering that meets the specific needs of a customer. As a true "turnkey" provider, we deliver a suite of professional services to manage, construct and install the solution with minimal disruption to daily operations. Our highly experienced maintenance and services teams then ensure it meets and exceeds the highest levels of performance and reliability to eliminate lapses in perimeter security and hostile vehicle mitigation for customers 24-hours/7-days-a-week.

Our depth and breadth of experience equips us with the insight and skills to understand and resolve new or difficult situations, outsmarting potential threats. We approach every challenge with persistent determination. We do whatever it takes, and we aren't easily deterred from our course of action.

OUR PROCESS

BEST PRACTICES CONSULT

We utilize a best practices and proven approach to perimeter security that allows us to formulate recommendations and to discover potential security gaps as we work diligently to identify solutions that others might miss, and to solve operational challenges that seem unsolvable.

DESIGN & ENGINEER

Our innovative team has a track record of designing new products, solutions and technology to fulfill the functional obligations and requirements of a customer's specific perimeter security goals if an existing product or solution is not available in the market.

CONSTRUCT & INTEGRATE

Our key differentiator is our experience in engineering, fabrication, manufacturing and construction and our success in designing custom controls while leveraging integration efficiencies and best practices.

MAINTAIN & SERVICE

We are proud of our success in delivering a well-defined maintenance, service and warranty program designed to meet the challenges and service-level agreement requirements of mission critical organizations on a 24-hour/7-day-a-week basis, while protecting a customer's investment.

END-TO-END CAPABILITIES AND EXTENSIVE KNOWLEDGE OF PERIMETER SECURITY

Our team has extensive experience in every aspect of perimeter security. We employ professionals who are experts in manufacturing, fabricating, engineering, custom control panel creation, defense design, construction, installation, testing and maintaining our systems.

We harness this depth and breadth of experience in every project we undertake, taking advantage of our experience to better serve and protect our clients and their assets.
