MVB-3X

MODULAR VEHICLE BARRIER

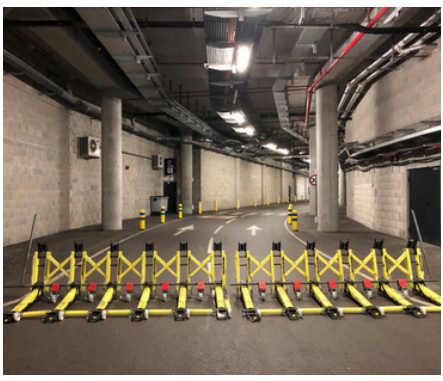

About

The MVB-3X (Modular Vehicle Barrier) is a quick and lightweight certified modular vehicle barrier. The system is a certified ASTM, IWA-14 and PAS 68 standard mobile vehicle barrier. The MVB-3X was tested and rated to stop a 7.5-ton truck at 30 mph.

Specifically designed for Hostile Vehicle Mitigation and Perimeter Security, the MVB-3X is used for Special Events within a city, county, or venue and serves as a secondary line of defense for access control points. The system was created for urban areas, the protection of critical infrastructure and special events, law enforcement and military units worldwide.

Special Event Security

Portable and Versatile

Flexible Length
